Dear Directors Rudolph and Jefferson:

I know that there are numerous discussions underway, with the State and the University of Southern California, over terms of how parking financial arrangements would work, should an agreement be reached in relation to the amended lease of the Coliseum. We understand that you may be concerned that this transaction could result in a reduction of revenue that normally comes from the special events that occur at the facilities at Exposition Park.

While our staff is confident that the risk is minimal, should any reductions in revenue occur from special event parking, over the next two fiscal years, we will work with the Natural Resources Agency to ensure that those reductions do not impact the operations, safety or maintenance of your respective departments or the public areas of Exposition Park.

Should you have any questions please feel free to contact me (916) 445 9862.
